

PROFILE

- Passionate about building impactful web applications, I'm a Computer Science student at GVPCE with a strong focus on full-stack development. I'm eager to apply my skills in a professional setting, where I can contribute to meaningful projects and grow alongside industry experts. Driven by challenges, I'm committed to continuous learning, mastering the latest technologies, and delivering high-quality work. With a fresh perspective and a collaborative spirit, I'm ready to make a positive impact on any team.

EDUCATION

Degree	Specialization	Institute	Year	CPI
B.Tech	Computer Science & Engineering	GVPCE	2022-Present	8.9
Inter	Physics, Chemistry, & Mathematics	Narayana Jr College	2022	9.41
SSC	-	Narayana EM School	2020	9.95

INTERNSHIPS

- AICTE—AWS Cloud** *May-June 2024*
 - Participated in an internship focused on AWS Cloud services. Gained exposure to cloud computing concepts and industry practices.
 - Worked with AWS tools and services, such as EC2, S3, and Lambda.
 - Worked on Serverless web application.

PROJECTS

- Zomato Clone-Restaurant Search and Listing Platform [Deployed Project]** *February 2025*
 - Developed a restaurant application using Spring Boot and Angular to manage and display restaurant listings with detailed information. Implemented pagination for efficient data handling and a search feature to filter restaurants by name, address, or cuisine.
 - Integrated location-based search using latitude and longitude to find nearby restaurants. Optimized the application for smooth performance and scalability, ensuring a seamless user experience.
 - GitHub : [Zomato Clone Live Demo: https://zomatoo-clone.web.app/](https://zomatoo-clone.web.app/)
- Educate School Website [Personal Project]** *May 2024*
 - Developed a school management website to manage student and staff data, including personal details, academic records, and attendance. Implemented CRUD operations with user-friendly forms and validations, secure user authentication, and role-based access control for administrators, teachers, and students. Leveraged MySQL for efficient data storage and JSP for dynamic, database-driven content display.

TECHNICAL SKILLS

- Languages:** Java, Python, C, C++
- Databases:** MySQL, PostgreSQL, Oracle, SQL Server, MongoDB
- Development:** SpringBoot, Angular, React, HTML, CSS, JavaScript, Bootstrap, , Spring, , node.js, express.js
- Tools:** VS Code, Eclipse, IntelliJ Idea, GitHub, Postman, STS, Docker

HOBBIES & INTERESTS

- Outdoor sports:** Cricket, Table Tennis, Badminton
- Martial Arts:** Karate
